ABOUT COMPANY

➤ Trusted Partner in General Contracting Excellence

RABIE SABSAB for General Contracting is a Saudi-based company specializing in high-quality construction, MEP, HVAC, and fire safety solutions. With a strong commitment to excellence, innovation, and client satisfaction, the company delivers comprehensive contracting and trading services across residential, commercial, and industrial sectors. Its experienced team ensures timely project completion, technical precision, and adherence to safety and sustainability standards.

Through continuous improvement and reliable partnerships, RABIE SABSAB has built a reputation for integrity, efficiency, and professionalism — serving as a trusted partner in Saudi Arabia's growing construction and infrastructure landscape.

OUR VISION

To be a leading name in Saudi Arabia's contracting and trading industry, recognized for delivering high-quality solutions that contribute to national development and exceed client expectations across every project.

OUR MISSION

To provide integrated contracting and trading services with excellence, & efficiency, — ensuring every project reflects our commitment to quality and long-term client satisfaction through skilled teams.

OUR VALUES

We uphold integrity, quality, and professionalism in every task. Our values emphasize teamwork, safety, innovation, & accountability, ensuring that every project we deliver strengthens client trust & contributes to national progress.

MEP CONTRACTING

RABIE SABSAB provides complete MEP contracting services, delivering reliable mechanical, electrical, and plumbing solutions for diverse projects. From design to installation and maintenance, the company ensures efficient systems integration, energy optimization, and strict compliance with safety standards — guaranteeing long-term performance.

Electrical Works

We provide comprehensive electrical contracting services, including power distribution, lighting systems, low-current installations, and control panels. Our team ensures safe, efficient, and reliable electrical networks through precision design, quality materials, and expert execution supporting modern infrastructure.

Mechanical Works

Our mechanical division specializes in HVAC systems, duct fabrication, fire protection, and piping installations. From system design to commissioning, our team delivers mechanical solutions that meet international standards and enhance comfort, functionality, and sustainability in every project.

Plumbing Works

RABIE SABSAB delivers end-to-end plumbing solutions, covering water supply, drainage, and sanitary installations for all building types. Our skilled team ensures leak-proof, hygienic, and sustainable systems using premium materials and modern methods, maintaining high standards of safety, functionality, & compliance.

INFRASTRUCTURE & CIVIL WORKS

Building Strong Foundations for Sustainable Infrastructure and Civil Excellence

RABIE SABSAB for General Contracting specializes in executing high-quality infrastructure and civil works across Saudi Arabia. Our expertise covers road construction, foundations, drainage systems, concrete structures, and site development. With a strong focus on safety, engineering precision, and timely delivery, we ensure every project meets the highest construction standards. Using advanced techniques, durable materials, and skilled professionals, we build infrastructures that support national growth and community development. Our commitment to quality and innovation ensures lasting results in every civil engineering and infrastructure project we undertake.

FIRE & SAFETY SYSTEMS

Comprehensive Safety Systems for Complete Protection

RABIE SABSAB for General Contracting provides complete fire and safety system solutions designed to safeguard lives, assets, and properties. We specialize in the design, supply, and installation of firefighting, fire alarm, and gas suppression systems in accordance with Saudi and international safety standards. Our skilled engineers ensure each project meets strict regulatory compliance through precise planning, advanced technologies, and reliable performance. From industrial plants to commercial complexes, we deliver protection systems that detect, control, and suppress fire hazards effectively and efficiently.

We deliver integrated fire and safety solutions covering design, installation, and maintenance. Our systems comply with global safety codes, ensuring reliable detection, prevention, and suppression to protect people, property, and operations from fire-related risks.

1

Fire Protection Systems

Comprehensive fire protection solutions including sprinklers, hydrants, pumps, and suppression systems engineered to provide rapid response and effective control for all facility types.

2

Fire Alarm & Detection Systems

Installation of intelligent alarm panels, smoke detectors, and sensors ensuring early warning, quick response, and safe evacuation during fire emergencies.

3

Gas Suppression Systems

Deployment of clean agent, chemical, and inert gas suppression technologies designed to protect sensitive equipment and critical environments without leaving harmful residues.

4

Emergency Lighting & Exit Systems

Provision of high-quality emergency lights and illuminated exit signage guaranteeing safe navigation and evacuation during power failures.

HVAC AND FABRICATION WORKS

RABIE SABSAB for General Contracting delivers complete HVAC and fabrication services designed for performance, comfort, and energy efficiency. We specialize in the supply, installation, and maintenance of air-conditioning, ventilation, and ducting systems for residential, commercial, and industrial facilities. Our skilled technicians ensure precise fabrication and fitting of ductwork, structural frames, and support systems. By combining advanced technology with high-quality materials, we deliver customized climate control and fabrication solutions that meet client needs while maintaining international standards for safety, sustainability, and operational efficiency.

HVAC Services

Our HVAC services include the design, installation, and maintenance of advanced air-conditioning, ventilation, and air distribution systems. We ensure efficient temperature control, air quality, and system reliability across all environments. Through energy-efficient technologies and professional execution, we deliver comfort-driven, sustainable climate solutions for industrial, commercial, and residential projects.

Fabrication Services

We provide precision fabrication services including duct manufacturing, steel framing, and custom metal works to support HVAC and structural needs. Using high-grade materials and advanced machinery, our team ensures durability, accuracy, and smooth installation, delivering cost-effective fabrication solutions that enhance system performance and overall project quality.

MEP EQUIPMENT & CONSTRUCTION MATERIAL

RABIE SABSAB for General Contracting provides reliable sourcing and supply of high-quality MEP materials essential for construction and infrastructure projects. Our offerings include electrical, mechanical, and plumbing components such as cables, switches, pumps, valves, and pipes. We partner with trusted manufacturers and suppliers to ensure durability, compliance, and performance. Our materials support seamless project execution, enhance system efficiency, and meet the demanding standards of commercial, residential, and industrial developments across Saudi Arabia.

1

Electrical Materials

Supplying a complete range of electrical products including cables, conduits, switches, panels, and lighting fixtures. Our materials are sourced from trusted brands ensuring safety, efficiency, and compliance with international standards for industrial, commercial, & residential systems.

2

Mechanical Equipment

Providing durable mechanical components such as pumps, valves, fittings, and piping accessories. Each product is engineered for reliability, performance, and long service life, supporting HVAC, plumbing, and industrial systems with exceptional quality and operational efficiency.

3

Plumbing Supplies

Delivering top-grade plumbing materials including pipes, fixtures, sanitary ware, and water distribution accessories. Our supplies guarantee leak-proof performance, hygiene, and sustainability — supporting efficient water systems for commercial, residential, and industrial applications.

4

Industrial Materials

Supplying a wide selection of industrial-grade materials including fasteners, gaskets, hoses, sealants, and structural supports. Our industrial supplies ensure high durability, corrosion resistance, and consistent performance, meeting the rigorous demands of projects across Saudi Arabia.

HVAC & CONTROL EQUIPMENT

RABIE SABSAB for General Contracting supplies a wide range of advanced HVAC and control equipment, supporting climate management for commercial, residential, and industrial projects. Our portfolio includes chillers, air handling units, ventilation systems, and digital controls. We ensure superior energy efficiency, comfort, and reliability through top-quality products that meet international standards for performance and durability.

We provide complete HVAC and control solutions that integrate seamlessly with modern building systems. From air-conditioning units to automation controls, every component is sourced from trusted manufacturers. Our focus on efficiency, sustainability, and precision ensures optimal temperature regulation, indoor air quality, and operational reliability across diverse environments and large-scale infrastructure developments.

1. Cooling Systems

Supplying high-performance chillers, condensers, and air-conditioning units designed to deliver energy-efficient cooling solutions for residential, commercial, & industrial applications.

3. Control Panels

Offering advanced HVAC control panels and automation systems for efficient monitoring, temperature regulation, and energy optimization in all facility types.

2. Ventilation Units

Providing durable ventilation systems including fans, ducts, and air-handling units to ensure healthy air circulation and balanced indoor environments.

4. Duct Accessories

Supplying complete duct accessories such as dampers, diffusers, and grills that enhance airflow distribution and overall HVAC system performance.

SAFETY PRODUCTS & EQUIPMENT

RABIE SABSAB for General Contracting provides a comprehensive range of safety products and equipment designed to protect lives, assets, and workplaces. Our offerings include certified personal protective equipment (PPE), firefighting systems, alarms, and emergency response tools that meet Saudi and international safety standards. We ensure every product is tested for reliability, durability, and compliance, enabling safe working environments across industrial, commercial, and construction sites. By partnering with trusted global manufacturers, we deliver innovative and cost-effective safety solutions that reduce risks, prevent incidents, and support our clients' commitment to health, safety, and environmental protection.

1. Personal Protection

Supplying certified PPE including helmets, gloves, goggles, vests, and boots to ensure worker safety in all industrial environments.

2. Firefighting Equipment

Providing extinguishers, hoses, hydrants, and fire suppression systems designed for rapid emergency response and effective fire control.

3. Safety Signage

Offering high-visibility safety signs and markings to guide workers, prevent hazards, and ensure compliance with workplace safety standards.

4. Emergency Systems

Delivering alarms, sirens, and evacuation systems that ensure quick response, alertness, and safe movement during emergencies or fire incidents.

Gas Detection Systems

Supplying advanced gas detection and monitoring systems that identify hazardous leaks in industrial and commercial environments. Our detectors ensure early warning, & safe evacuation, to prevent fire, explosion, or health hazards.

Fall Protection Systems

Providing complete fall protection solutions including safety harnesses, lifelines, anchor points, and retractable blocks for work at heights. Our systems are designed to prevent falls and minimize injury risks for workers in construction, maintenance, and industrial sectors. Each product meets international safety standards, ensuring durability, comfort, and reliability to maintain maximum safety in high-risk working environments.
